

BRINELL

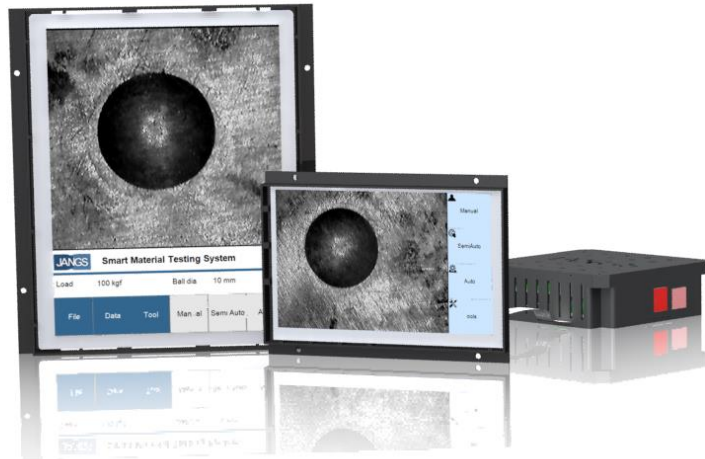

Industrial grade touch screen

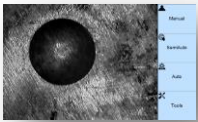

Manual

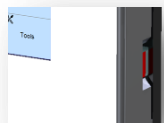

Auto system

Key Features

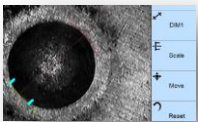

Industrial grade 10" touch screen and most reliable, vigorously tested advanced electronics.

USB port for all types of data transfer

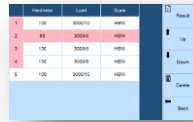

- Report export
- Reading export
- Certificate file export /import.

Manual measurement with various more interactive options.
Re-arrange or redraw of two scale lines.
Coarse and fine movement for hairlines.

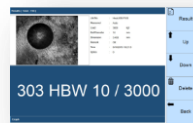

Different statistical parameter selection as well as selection of graphs and different data in all available reports.

Interactive reading selection and their priority setting as per report requirement.

Graph display of selected readings.

Result display with image and details of measurement.

Conversion to other hardness numbers

Three reports

- Statistical report with main data.
- New image report for foolproof reporting.
- All reading report.

Application

Brinell is a hardness measurement system which interacts with Brinell hardness testing machine.

Brinell converts indentation dimension in to Brinell hardness number and display a result with image and details of measurement.

Specifications

Description	BRINELL
Dimension	155 x 45 x 210
USB Port	Version 2.0
Touch screen	Grade : Industrial grade Size : 10 inch (Diagonal) Type : LCD with touch
Test	Hardness testing (Brinell)
Power	230V, 0.5A
Multiple Certificate File saving	Available
Hardness conversion	Available
Desktop connection (Optional)	Available

Installation

- Due to constant R&D, specification and features are subject to change without prior notice.
- The dimensions given above are approximate.
